

AT YOUR SIDE IN YVERDON-LES-BAINS,
AND ACROSS SWITZERLAND.

Textile excellence,
**at the service of
Swiss watchmaking.**

bardusch

A local presence, *a tailor-made service.*

For over 40 years, at the service of the great watchmaking houses.

From our site in Yverdon-les-Bains, we deliver a local service that combines efficiency with personalisation. **Bardusch understands the demands of the watchmaking production chain.** Our responsiveness and local presence make the difference in your daily operations: a reliable, available, people-centred partner.

A single point of contact, fostering trust

Deep expertise in the Swiss watchmaking industry

Local proximity for swift delivery times

Full cost control and streamlined procurement via the bardusch web portal

Proximity, tailor-made support and focused expertise:
a partner who understands your realities and delivers with speed and precision.

Precision textiles for exceptional timepieces.

Bardusch protects what you create with passion.

Your teams deserve the best to craft the exceptional. **Our professional garments are designed for environments where dust and particles must be strictly controlled.** Every piece is engineered with precision, ergonomics, aesthetics and alignment with your brand universe in mind. From design to customisation, we adapt cuts, fabrics and finishes to your specific requirements.

A customisable range, *designed for watchmaking.*

Collections that embody precision, functionality and style

Seam finishing with no visible overlock stitching

Premium certified smocks for dust-controlled assembly lines

Branding through embroidery or textile marking

Made-to-measure professional garments

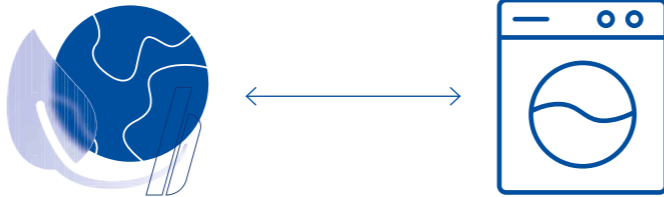

Fully customisable: collar, sleeves, cut, fabric, colour

Sustainable luxury begins here.

Textile leasing: the key to sustainable luxury.

In an industry where excellence is non-negotiable, we offer textile solutions aligned with the commitments of Swiss watchmakers. **Our circular management model reduces textile waste and enhances environmental impact while guaranteeing continuity and reliability in logistics.** Each garment is made to last, undergoing regular maintenance, repair when necessary, and seamless replacement – preserving resources and protecting the planet.

A measurable reduction in textile waste

Circular economy model: maintenance, repair, replacement, traceability

Certified by the Swiss Energy Agency for the Economy since 2005

Alignment with CSR objectives and luxury industry certifications

Reduce textile waste, strengthen your sustainability credentials and gain efficiency with bardusch.
